

Recruiting – London and Bristol (all grades)

Air Quality Consultants Ltd is a leading UK air quality consultancy providing specialist services for developers, industry, local authorities and central government, both within the UK and internationally.

To support an expanding workload the Company is seeking to recruit additional members of staff with a range of experience, up to Principal Consultant level. This is an exciting opportunity to make a significant contribution to the continued success and growth of a company with an outstanding reputation in the consultancy field. Positions are available in both London and Bristol.

Air Quality Consultants has played a leading role in the development of air quality management and assessment over several decades. Successful candidates will be joining one of the largest air quality consultancy teams in the UK, with the opportunity to contribute positively to a range of projects in a stimulating and supportive environment.

Candidates should ideally have an MSc or higher in a science-based discipline. A high level of computer literacy is required, together with the ability to prepare comprehensive and accurate reports. Candidates will need to show good communication skills, both orally and in writing, as well as a high technical capability and ability to review and interpret data. Membership of relevant professional institutions, such as IAQM, will also be taken into account. A full driving licence is required.

Salary will be commensurate with experience. Air Quality Consultants also provides a competitive benefits package, including a company pension scheme and a profit-related bonus scheme.

Applications should be made in writing, including a current CV, and sent by email to jobs@aqconsultants.co.uk. For further information about the posts please contact Stephen Moorcroft or Chris Whall (0117 974 1086).
